Networking – Leadership - Connections

Central Florida ACHE 2023

Partnership Brochure

Thank you for your interest in becoming a **2023 Premier Corporate Partner** with the Central Florida Chapter of ACHE (ACHECF). We have over 725 active members and our diverse chapter was recognized nationally by ACHE for our performance with Merit and Performance Awards.

Network with Healthcare Thought Leaders & Decision Makers

The ACHECF Premier Corporate Partnership Program is designed to build strong, meaningful relationships that result in working together to achieve the common goal of elevating the efficiency and quality of healthcare delivery.

When you want to reach healthcare leaders in a collaborative environment, ACHECF can help. Our award-winning chapter is the preeminent professional society dedicated to helping leaders excel in the healthcare management field by providing educational and career development resources throughout the year.

As an [ACHECF 2023 Premier Corporate Partner](#), your organization will be fostering innovative solutions to the challenges healthcare leaders face by directly contributing to education and network creation to empower leaders to transform healthcare through the delivery of safe, effective, and efficient care. By partnering with us, you provide funding for ACHECF to develop pertinent programming, career resources, networking opportunities, and educational events throughout the year.

ACHE of Central Florida limits the total number of corporate partnerships available to maximize the benefits each Premier Corporate Partner receives. We have several unique opportunities to engage with our chapter members throughout 2023 which are made available on a first-come, first-serve basis.

This packet outlines the benefits of being a Premier Corporate Partner.

Should you decide to move forward as a 2023 Partner, please sign and submit the form on the last page.

There are four levels through which you can activate your Premier Corporate Partnership: **Titanium, Platinum, Gold, and Silver.**
